Bethpage Water District
Mr. Ron Krumholz
Superintendent
25 Adams Avenue
Bethpage, NY 11714

Reference: Contract No. N62472-90-D-1298, CTO No. 0089

Dear Mr. Krumholz,

The U.S. Navy and its environmental consultant, HALLIBURTON NUS met with the Attorney for the Town of Oyster Bay on January 26, 1993 to discuss the Navy's off-site drilling permits. The Township Attorney suggested that all information being disseminated to the local community pertaining to the Naval Weapons Industrial Reserve Plant (NWIRP) also be forwarded to you. Please find enclosed copies of all community information to date (two Fact Sheets and a Drilling Notice).

The Navy has begun their off-site monitoring well program in the residential neighborhood. The first part of the off-site activities, installation and testing of temporary groundwater monitoring wells, has been completed. A Fact Sheet summarizing the temporary monitoring well results will be available in early February 1993. The second part, installation of permanent off-site monitoring wells, is scheduled to begin the week of February 1, 1993. As part of the community relations efforts at the NWIRP Bethpage, on January 19 and 25, 1993, the Navy and HALLIBURTON NUS conducted a door-to-door notification of upcoming drilling activities (See Drilling Notice for drilling locations). Only the homes which will be most directly affected were contacted. If a resident was at home, they were handed a notice and the upcoming drilling activities were explained to them. If no one answered, a copy of the Drilling Notice and Fact Sheet were placed in their door or mail box.

If you or any resident has any questions concerning the Navy's program, please do not hesitate to call Jim Colter, the Navy's Remedial Project Manager at (215) 595-0567. Jim Colter's address is provided on the Drilling Notice.

A handwritten signature in cursive script, appearing to read "Dave Brayack", with the word "for" written below it.
